

BENCHMARK®

FLAME RESISTANT UTILITY WEAR

- STYLE:** Flame Resistant Long Sleeve Shirts
- PRODUCT:** 1004FR
- COLORS:** Navy, Beige
- SIZE:** Small, Medium, Large, X-Large, 2X-large and 3X-Large
- FABRIC:** 5.5 ounce/yard, Flame Resistant Benchmark FR Twill (Soft)
- HRC:** Hazard/Risk Category = 1
- ATPV:** Arc Thermal Performance Value [ATPV] = 6 cal/sq-cm
- CODES:** NFPA 70e, OSHA 1910, NESC 2007, ASTM 1506
- CARE:** Machine Wash Warm with Laundry Detergent, Tumble Dry Low, Do Not Use Chlorine Bleach, Low Iron, No Steam. *This garment will remain flame resistant regardless of the number of wash and wear cycles* however improper care can decrease or possibly destroy the flame resistant performance characteristics. Dry clean and industrial laundry safe. Safe to wash with non-flame resistant garments.
- INTENT:** This garment was designed and manufactured as secondary personal protection against the threat of arc-flash. This shirt is constructed from flame resistant fabric. It will resist ignition and will not continue to burn when the ignition source is removed. They are intended as a last line of defense and for continuous wear, they are not intended to be the primary level of protection and they are not designed to protect the wearer in the immediate areas of ignition. Do not use this garment to enter a fire. This garment, like all flame resistant garments must be correctly matched to the risk or threat the wearer may encounter.
- USE:** This shirt must be worn fully closed in order to protect the wearer as intended. This includes sleeve rolled down and all buttons closed. The fabric is nontoxic and safe to wear against the skin.
- NOTE:** This shirt is engineered for movement and is constructed with both under-arm and back gussets as well as a generous fit. Flat hemmed, the shirt can be worn tucked in or out. The shirt is light weight and ideal as a stand alone shirt or as part of a layering system.
- INDUSTRIES:** Electrical, Utilities, Power Generation, Power Distribution, Communications, Manufacturing, Maintenance, Welding, Flame Cutting, Petrochemical, Oil, Gas, Refineries, Emergency Response Support, Military, Chemical, Foundries, Mining and more.
