

COLORS:

INDIGO (DARK RINSE)

belt loops:

We pay close attention to all details, even belt loops! You will notice that we position one belt loop over the side pockets for those who like to hang keys or badges. What you may not notice is that our belt loops are first sewn into the bottom of the waist band and then reinforcing stitches are applied to the loop and body of the pants for double reinforcement. While this is a more difficult construction it is also the strongest construction for belt loops.
