

- STYLE:** Flame Resistant Sweatshirt with Hood
- PRODUCT:** 3014FR
- COLORS:** Navy (gray lined hood)
- SIZE:** Small, Medium, Large, X-Large, 2X-Large, 3X-Large, 4X-Large, 5X-Large
- FABRIC:** 10 ounce/yard, Flame Resistant Benchmark FR Fleece
- HRC:** Hazard/Risk Category = 2
- ATPV:** Arc Thermal Performance Value (ATPV) = 16 cal/sq-cm
- CODES:** NFPA 70e, OSHA 1910, NESC 2007, ASTM 1506
- CARE:** Machine Wash Warm with Laundry Detergent, Tumble Dry Low, Do Not Use Chlorine Bleach, Low Iron, No Steam. *This garment will remain flame resistant regardless of the number of wash and wear cycles* however improper care can decrease or possibly destroy the flame resistant performance characteristics. Safe to wash with non-flame resistant garments or dry clean.
- INTENT:** This garment was designed and manufactured as secondary personal protection against the threat of arc-flash and flash fire. This sweatshirt is constructed from flame resistant fabric. It will resist ignition and will not continue to burn when the ignition source is removed. It is intended as a last line of defense and is for continuous wear, it is not intended to be the primary level of protection and it is not designed to protect the wearer in the immediate areas of ignition. Do not use this garment to enter a fire. This garment, like all flame resistant garments must be correctly matched to the risk or threat the wearer may encounter.
- USE:** This garment must be worn fully closed with hood cords cinched and tied in order to protect the wearer as intended. If the coverall becomes soiled with a flammable or hazardous material remove and replace in a safe area.
- NOTE:** This garment can be worn as an outer layer or as part of a multilayer system. Its design incorporates a nonconducting zipper and a three piece lined hood. The hood can be worn over or under a hard hat. Shrinkage is controlled to less than 5%.
- INDUSTRIES:** Electrical, Utilities, Power Generation, Power Distribution, Communications, Manufacturing, Maintenance, Welding, Flame Cutting, Petrochemical, Oil, Gas, Refineries, Emergency Response Support, Military, Chemical, Foundries, Mining and more.
