

# BENCHMARK®

FLAME RESISTANT UTILITY WEAR

- STYLE:** Feather Weight Flame Resistant Coverall
- PRODUCT:** 4014FR
- COLORS:** Navy, Beige
- SIZE:** Small, Medium, Large, X-Large, 2X-Large, 3X-Large, 4X-Large, 5X-Large  
Adjustable inseams with stops for Short, Regular, Long and X-Long.  
There are only eight sku's per color.
- FABRIC:** 5.5 ounce/yard, Flame Resistant lightweight Benchmark FR Twill.
- HRC:** Hazard/Risk Category = 1
- ATPV:** Arc Thermal Performance Value (ATPV) = 6 cal/sq-cm
- CODES:** NFPA 70e, OSHA 1910, NESC 2007, ASTM 1506
- CARE:** Machine Wash Warm with Laundry Detergent, Tumble Dry Low, Do Not Use Chlorine Bleach, Low Iron, No Steam. *This garment will remain flame resistant regardless of the number of wash and wear cycles* however Improper care can decrease or possibly destroy the flame resistant performance characteristics. Dry clean and industrial laundry safe. Safe to wash with non-flame resistant garments.
- INTENT:** This coverall was designed and manufactured as secondary personal protection against the threat of arc-flash. This coverall is constructed from flame resistant fabric. It will resist ignition and will not continue to burn when the ignition source is removed. It is intended as a last line of defense and is for continuous wear, it is not intended to be the primary level of protection and it is not designed to protect the wearer in the immediate areas of ignition. Do not use this coverall to enter a fire. This garment, like all flame resistant garments must be correctly matched to the risk or threat the wearer may encounter.
- USE:** This coverall must be worn fully closed in order to protect the wearer as intended. If the coverall becomes soiled with a flammable or hazardous material remove and replace in a safe area.
- NOTE:** This coverall was designed to reduce the threat of heat exhaustion for workers in warm climates or in confined spaces. The fabric is light weight, breathable flame resistant cotton which is more durable than natural cotton's in the equivalent weights. The coverall is designed for movement and comfort. This garment will not shrink more than 5%.
- INDUSTRIES:** Electrical, Utilities, Power Generation, Power Distribution, Communications, Linemen, Manufacturing, Maintenance, Welding, Flame Cutting, Petrochemical, Oil, Gas, Refineries, Emergency Response Support, Military, Chemical and more.
